

AOC 2.0 Oil Cooler

Avoid unexpected shutdowns,
leveling problems, and oil odor
with an MEI oil cooler

TECHNICAL DATA

AOC 2.0

Part #: **31567**

Dimensions: 18" x 20" x 24"

Weight: 67 lbs.

Heat removal: 21,300 BTU/hr

Circulation Rate: 12.7 GPM

Decibels: 69 db

Max Pressure: 87 PSI

Electrical: 115 or 208 VAC

Filter: 10 micron

External Airflow: 1266 CFM

Motor: 1 HP, 115 VAC, 1 phase,
9.61 Amp motor
Or 1 HP, 208-220 VAC, 1 phase,
5.20 Amp motor

The AOC 2.0 Oil Cooler mounts directly to the power unit, venting exhaust heat back into the equipment room. It is designed for climate-controlled environments where stable room temperatures are maintained to support efficient cooling.

FEATURES & BENEFITS

- ✓ Lowers oil temperature by up to 40°F
- ✓ Smoother stops & starts
- ✓ Integrated oil filter
- ✓ Extended component life
- ✓ Designed to be mounted on the power unit for easy installation

IMPROVEMENT OVER PREVIOUS MODEL

- ✓ Reduced size for easier installation
- ✓ 73 lbs. lighter lowers freight cost
- ✓ +3,800 greater BTU removal
- ✓ Increased circulation by 4.7 GPM
- ✓ Decreased decibel level by 11 db
