

Working Together to be the Best!

- ▶ Low cost
- ▶ Maintenance free
- ▶ Chamber replacement
- ▶ Multi-layered diffuser

The MEI Muffler uses a multi-layered diffuser tube to effectively treat hydraulic noise. The Mufflers can work as replacements for the Chamber style mufflers. As there is no bladder in the Mufflers, no regular maintenance is required.

MEI Part #	Description	Length	Ends	Width
30993	MUFFLER 2" GRV × 2" GRV (200 max. GPM)	13 1/4	1 1/4	4 5/8
30994	MUFFLER 3" GRV × 2 1/2" GRV (350 max. GPM)	13 1/4	1 1/4	4 5/8
