

Working Together to be the Best!

- ▶ Maintenance free
- ▶ Lower system maintenance cost
- ▶ 40%-60% reduction in system noise & vibration
- ▶ Easy to install
- ▶ Direct replacement for Air Bladder silencer

MEI's Energized Sleeve line of silencers use a proprietary, hydraulically stable urethane foam to effectively treat hydraulic noise. The Energized Sleeve silencers can work as drop-in replacements for the MEI Air Bladder style silencers. The Energized Sleeve locally reduces the effective stiffness in the hydraulic system exactly like the bladder in traditional hydraulic silencers or the expansion chamber in a muffler. As there is no bladder in the Energized Sleeve silencers, no regular maintenance is required.

MEI Part #	Description	Length	Ends	Width
30987	SILENCER PRO 2" GRV × 2" GRV (220 max. GPM)	13 1/4	1 1/4	4 5/8
30988	SILENCER PRO 2 1/2" GRV × 2 1/2" GRV (325 max. GPM)	13 1/4	1 1/4	4 5/8
30989	SILENCER PRO 3" GRV × 2 1/2" GRV (350 max. GPM)	13 1/4	1 1/4	4 5/8
30990	SILENCER PRO 3" GRV × 3" GRV (350 max. GPM)	13 1/4	1 1/4	4 5/8
30991	SILENCER PRO 2 1/2" THD × 2 1/2" THD (300 max. GPM)	10 1/2	NA	4 5/8
30992	SILENCER PRO 2" THD × 2" THD (220 max. GPM)	10 1/2	NA	4 5/8
